OPTOMAP RETINAL EXAM

In our continued efforts to bring the most advanced technology to our patients, we are proud to announce the inclusion of the Optomap Retinal Exam as an integral part of your exam today.

Our doctors are concerned about retinal problems including macular degeneration, glaucoma, retina holes or detachments, and systemic diseases such as diabetes, stroke, and high blood pressure. These conditions can lead to serious health problems, including partial loss of vision or blindness, and often develop without warning and progress with no symptoms.

An Optomap Retinal Exam provides:

An eye wellness scan

An in-depth view of the retinal layers (where diseases can start)

The ability for you to view your Optomap image at the time of your exam

An annual, permanent record of your medical file, which gives doctors comparisons for tracking and diagnosing potential eye disease

Insurance typically does not cover any advanced screening technology beyond the general exam. Our doctors highly recommend the Optomap Retinal Exam for all patients. This will be done as an enhancement to the general eye exam for a fee of \$32.
